AUGUST 21, 2018

Dear Faulkner County Home Builder Member,

Effective August 21st our new member and current members renewal process will be managed by a third party called Dues Hub powered by Billhighway. In the coming weeks, you will receive email communications from Billhighway. Please **DO NOT DELETE** the notices. Please add this address to your contact list so these important emails do not end up in your spam folder. These emails will be about your membership with the Faulkner County Home Builders Association.

There are many advantages to this change. We can now offer installment options and the ability to pay via the method of your choice (credit card, ACH, or check). It also offers the ability to automatically renew your dues on your anniversary date, and has an online new member application, making it easier to sign up new members right on the spot!

When you get an email from billhighway.com, you will have a link that takes you to a log-in area to activate your account. You will only have to do this once. After that, you simply log in and pay online. Or, if technology just isn't your thing, you can still mail a check and I will take care of processing it for you on-line.

If your anniversary date is over the next few months you will receive emails from Billhighway as well as the regular invoices you are used to seeing just to make sure everyone understands the changes.

All of the links will be listed on our website soon, I will keep you updated. I hope to make this transition as painless as possible for you. If you have any questions, concerns, or comments, please feel free to contact me.

Thank you so much!
Christina Galloway
Executive Officer
Faulkner County Home Builders Association
